WORK EXPERIENCE

Senior Web Application Developer (7/13 – present)

Dictum Health, Inc.

Portsmouth, NH

Sole front-end developer of complex doctor/patient web portals which utilized webRTC video conferencing and real-time data transfer from remote-operated medical devices. Used freeware graphing libraries to trend human vital signs in jQuery. Assisted back-end development in Java as needed. Also developed and maintained corporate website.

Frontend Engineer / Co-Founder (12/11 – 6/13)

Vencentric Systems

Portland, Oregon

Developed business website and front-end of cloud-based resource management software for the supermarket industry. Created numerous interactive demonstration videos in Flash. Implemented FusionCharts dashboard widgets throughout web application.

Custom Solutions Engineer, Innovation Services (03/07--12/11)
Google / DoubleClick, Inc
New York, NY

Developed new technologies for Flash-based advertisements. Built custom Flash components for distribution to clients, such as Send-To-Friend emailer, SMS texting, and live video player. Developed LiveStream Video component based on OvP player, which was seen in Google's 'Watch This Space' campaign and demo'd at the 2011 IAB MIXX conference. Successfully completed in-house HTML5 course. Minor server admin duties on a WAMP environment.

Lead Programmer (08/05--03/07)
PPI, Inc.
New York, NY

Oversaw daily operations of approximately 20 e-commerce and SEO websites for adult video production company. Fixed pre-existing design flaws; converted static websites to dynamic database-driven structure; built Flash-based streaming media players with database functionality; mass-converted DVD video to streaming format(s); minor server maintenance tasks and in-house PC repairs.

System Technician (11/04--07/05)
BlueFire Security Technologies
Cambridge, MA

Various duties include researching software, intelligence gathering, constructing VMWare builds of different operating systems with various software packages; did general troubleshooting for Windows-based machines, as well as setup and testing of rack-mounted servers and concentrators (IBM, Nortel, etc).

EDUCATION

Southampton College/Long Island University, Southampton, NY
1997-1998. Major: English, concentration in writing. GPA: 3.3; 1997 Dean's List.
Transferred.
University of New Hampshire, Durham, NH 9/98-5/2001. Incomplete degree.
